Brandworkz 8.4.1 Release Notes

1. Asset Publish Date

Assets uploaded to Brandworkz either directly of via a workflow can now be scheduled for publishing on a specified date. It is also possible to apply a publish date to multiple assets via the bulk edit features.

2. CMS Improvements

2.1. Additional In-line Editing

Content in the quick links and carousel widgets can now be edited in-line

2.2. Minimised Side Panel

A minimised side panel in the page editing mode has been introduced to provide a quick link to all the widgets on the page and highlight any unpublished changes.

3. Security Fixes

This release contains a number of security fixes.
